- This is a home that knows the difference between square footage and living space. Every room was considered with one quiet goal in mind: to make you feel at ease the moment you arrive.
- The great room serves as the heart of the home with its gas fireplace anchoring the space and flanked by built-in cabinetry and shelves.
- The kitchen design is stylish and functional beginning with the premium cabinetry, quartz tops, Bosch stainless steel appliances, tile backsplash, pot filler and a walk-in pantry.
- The primary retreat offers both comfort and luxury, from the spacious bedroom to the spa inspired bathroom where a free-standing soaking tub melts the day away and a generous tile shower is ready to jump start the day.
- The second floor is designed to offer the perfect balance of privacy, flexibility and space for family or guests. Three bedrooms and a bonus room ensure family and guests always have a place to call their own.
